Indulge your mind, body, and soul in a destination unlike any other, where you may unwind among Mother Nature’s most incredible feats—the famed Jackson Hole, Wyoming. While a vacation destination, Jackson is also the gateway to Grand Teton and Yellowstone National Parks.

In the fall, golden leaves illuminate the valley floor, and jagged, snow-capped peaks provide unforgettable views. The combination of clean mountain air, wide-open spaces where wildlife thrives, streambeds filled with trout, and an unrivaled level of Western authenticity appeals to the discriminating Porsche lifestyle.

Jackson Hole Valley is a flourishing cultural arts center with celebrated restaurants and recreational opportunities. While you may see a celebrity or two strolling by, this region is the best place in the Lower 48 to observe wild wolves, bears, elk, and moose, to name a few of the iconic species that call this area home.

Our host resort is the Forbes five-star [Four Seasons Resort Jackson Hole](#), 7680 Granite Loop Rd., Teton Village, WY 83025. Known for its exceptional personalized hospitality and luxurious accommodations, U.S. News and World Report has rated the Four Seasons as the #1 resort in Jackson Hole. The décor reflects a sense of Western grandeur and sophistication, emphasizing comfort and indulgence while offering every amenity and convenience. Tour Etiquette

Arrive With a FULL Tank of Gas!

Or, arrive early enough to fill up. Experienced tour leaders pick starting points with nearby filling stations (inexperienced tour leaders please take note). Don't be that guy who—after the drivers' meeting—says “Everybody wait 15 minutes (or more) while I go fill my tank.”

We are a car club aren't we? So, shouldn't one of our favorite things be to drive in our cars? There are some PCA suggestions for driving routes that you might want to try with your Porsche. Click www.zone8.org/about/favorite_drives.php

“Survival Gear”

PCA Tours are not desperate struggles pitting man against nature. But! They usually are scenic drives in places a flatbed won't reach before you finish your lattes at the corner Starbucks. Just in case something should go wrong with one of the most reliable automotive marques, take along some things to keep yourselves comfortable if you have to wait:

- Water
- Snacks
- Sunscreen

¹ There's a [Caltrans Quickmap](#) app: [Google Play](#); [Apple Store](#).

² There's an [Arizona 511](#) app, too: [Google Play](#), [Apple Store](#).

³ There's an iPhone app for Nevada 511 (and probably Android) but we can't find a link.

- Hats
- Jackets
- Comfortable walking shoes

20-23 February 2025, [Arizona Outlaws Return to Death Valley](#)

The Arizona Outlaws are planning another 4-day driving event to Death Valley National Monument, set for February 20-23, 2025. Here's what to look forward to:

Death Valley is the largest U.S. National Park outside Alaska at 3,422,024 acres, with nearly 1,000 miles of paved and dirt roads providing access to locations both popular and remote. Even so, 93 percent of the park is protected as designated Wilderness. That wild country includes low valley floors crusted with barren salt flats, rugged mountains rising as much as 11,000 feet, deep and winding canyons, rolling sand dunes, and spring-fed oases.

Zone 8 Porsche Club of America Coming Events – February 2025

The names are ominous. Death Valley. Badwater. Furnace Creek. Yet there's striking beauty. The rippling sand dunes. Colorful mountains. Plants and animals thriving amid topographic extremes. Now you're one of them. Savoring the views. Tackling the drives. And basking in the sun. With nothing but good omens in sight.

While Death Valley is not the typical 356 inspired twisty-road driving experience, it is one of the more interesting destinations in the West. The itinerary has been designed to visit most of the interesting sights in Death Valley without lengthy drives each day. The weather in February averages a high of 74 and low of 46 degrees. All roads on the drive are paved.

20-23 February 2025, 41st [LA Lit Meet Weekend](#)

Los Angeles will again be the center of the Classic Porsche Universe for a weekend of open houses and swap meets.

The meet is held in the two large ballrooms on the main floor of the [Hilton Los Angeles Airport](#), 5711 W Century Blvd, Los Angeles, CA 90045 — very close by Los Angeles International Airport.

Lit Meet Parking

Before 2024 parking at the LAX Hilton was a good deal—in 2024 the price of near-airport parking rose to over \$ 50 per day. It's worth investigating alternatives.

Clearance in the LAX Hilton garage is maybe 5'10".

The Porsche Design Luxury Skyscraper In Miami Is Sinking Much Faster Than Expected

A twelve-story residential building nearby collapsed in 2021

From [Jalopnik](#), by [Bradley Brownell](#), Published Tuesday, 17 December 2024, 3:05PM

Photo: Porsche Design

The [Porsche Design Tower in Miami](#), built in 2014, is one of 35 luxury beachfront properties along the coast that [a recent University of Miami study](#) has found to have sunk by up to three inches into the unstable sandy earth. [Three inches might not seem like a lot](#), but this is much faster than most experts anticipated. If you, [like footballer Lionel Messi](#), paid \$9 million for an apartment in the Porsche Design Tower, your view of the skyline is [now a few inches lower](#) than it was a decade ago.

The collapse of a 12-story apartment building nearby in 2021, which killed 98 people, [caused geologists to keep a close eye on the buildings](#) in the area. They haven't yet raised any alarms about the sinking buildings, but warn that continued sinking at these rates could mean long-term danger. The sinking could be a sign that rising sea levels are accelerating the erosion of the property's underlying limestone. Much of south Florida is built upon limestone, and this

problem is not limited to just the Miami area.

“Almost all the buildings at the coast itself, they’re subsiding,” Falk Amelung, the study’s senior author and a geophysicist at the University of Miami’s Rosenstiel School, said [in an interview with the Miami Herald](#). “It’s a lot.”

“It’s probably a much larger problem than we know,” Paul Chinowsky, a professor of civil engineering at the University of Colorado Boulder, told the Herald.

The 35 buildings in question include the Ritz Carlton Residences, The Surf Club Four Seasons, Trump Tower III, Trump International Beach Resort, and several other high-end condos. The study used satellite imagery to measure how much the land beneath each building had sunk, and was able to pinpoint that measurement down to the fraction of an inch. All of the buildings had sunk to some degree, with measurements showing between 0.8 inches and three inches. It is possible that at least some of the Porsche Design building’s sinking is due to the ground settling underneath the building as it’s still relatively new construction and the 56-floor building with an integrated car elevator is quite heavy.

Subject: Region website membership dues check

Reply-To: national.pca.org

Hello PCA Region Presidents, Webmasters, and Membership Chairs,

It has been brought to our attention that some Region websites have the old membership dues amounts published.

Could you take a moment to check your Region website to make sure the membership dues are current?

Here are the current rates:

- 1 year..... \$56
- 2 years... \$110
- 3 years... \$162

It would be ideal if all of the PCA websites have the correct information by mid November.

Thank you very much for double checking and updating the membership dues.

Have a great weekend.

Jim
