**Pine Mountain Club Drive and Dine
and SBR Newcomer Member Recognition Event
June 25, 2026**

Experience the thrill of Highway 33—a mountain drive that rivals the best roads in Europe. Gather in Ventura at 9:30 a.m. for a 10:00 a.m. launch, then slip into your waiting Porsche for a stunning 70-mile journey. You'll carve through the steep gorges of Los Padres National Forest, top summits over 5,000 feet, and follow the Jacinto Reyes National Forest Scenic Byway—better known as the Maricopa Highway—as it winds through dense forest, dramatic rock formations, and the rugged Sespe Creek gorge. Our spirited ascent delivers us to the 5,160-foot Pine Mountain Summit, where the Cuyama Valley sprawls below in spectacular fashion. On the descent, massive white sandstone outcrops near Rose Valley catch the light. After the technical twists, we pause briefly at the Ranger Station, then roll on to the Pistachio Factory for a relaxed break—grab some fabulous pistachios, drinks, and snacks.

Stage two continues on Hwy 33, merging onto Hwy 166 North and then Hudson Ranch Road. Here, your Porsche truly proves its worth: curves, curves, and more curves of every shape and description. Beware of “smile cramps.” We climb from the valley floor at 3,000 feet to Pine Mountain Club at approximately 6,000 feet, where a private luncheon awaits at the Condor Restaurant (burger—veggie option available—chicken sandwich, or BLT, served with salad, fries, and a beverage). After lunch, we recognize our newest club members.

All this for \$42/person. Reservations open April 30 at msreg.com/sbrpinemountain2026. Questions? Lionel Neff at zuma13.msn.com.

FRUIT OF THE VINE DRIVE AND DINE
At Vega Vineyards in the Santa Rita Hills
July 22, 2026

Summer has arrived, and there's no better way to enjoy it than behind the wheel of your Porsche, favorite passenger beside you, carving through the hills and backroads of Santa Barbara County. Our group of wine and food enthusiasts will gather in Santa Barbara and set off on a memorable drive. Warm weather, winding roads, and a family-style luncheon with wine pairings await. We'll cross the San Marcos Pass on Highway 154, glide past Lake Cachuma, and roll through Los Olivos before turning onto Foxen Canyon and Ballard Canyon. Vineyard after vineyard lines the route, each encouraging a friendly "thumbs up" as we pass. From there, we'll cruise through Solvang, enjoy the tree-lined curves of Alisal Road, then take a short sprint on Highway 101 North to Santa Rosa Road. Our destination: Vega Vineyards, a storybook farm and ranch in the Santa Rita Hills, steeped in early California history (think the legend of Zorro).

At Vega, we'll be seated family style beneath a large trellis and oak trees. The farm-to-table meal begins with beet and Caesar salads, followed by generous portions of salmon and short ribs. Each course is paired with Vega's Sparkling Rosé, Pinot, and Dal Prado wines. After lunch, enjoy a wine pour and a walking tour of the estate.

The price for the drive, gourmet meal, wine pairings, and tour is \$98 per person, plus a \$2 MSR fee. This is no ordinary drive and dine—it's an unforgettable experience. Registration opens May 10 and closes July 10, or when the event sells out. Register at msreg.com/sbrvega2026. Questions: Lionel Neff at zuma13@msn.com.

Saturday, 22 August 2026, California Inland Region [Hot August Nights](#)

Beat the heat and find some shade inside of some of our favorite canyon roads

Our 55.5-mile drive will be challenging! The drive will take about 90 minutes to complete. We'll climb over 5,300 feet of elevation change and see multiple lake vistas.

Sunset is at 7:29 PM so we'll have long shadows and golden sunshine at the start as we catch glimpses of the lake. Our headlights will start to light up the road about $\frac{2}{3}$ rds through our trek through the canyons.

All those twisty curves will work up an appetite.

Around 8 PM our drive will conclude at [Wolf Creek Restaurant & Brew](#) in Valencia. For over 25 years Wolf Creek has delivered outstanding food and drinks. The menu is deep and doesn't disappoint. The team at Wolf Creek loved serving us the last two years and has graciously allowed our group size to increase to 40. Tour Etiquette

Arrive With a FULL Tank of Gas!

Or, arrive early enough to fill up. Experienced tour leaders pick starting points with nearby filling stations (inexperienced tour leaders please take note). Don't be that guy who—after the drivers' meeting—says “Everybody wait 15 minutes (or more) while I go fill my tank.”

Zone 8 Favorite Drives

We are a car club aren't we? So, shouldn't one of our favorite things be to drive in our cars? There are some PCA suggestions for driving routes that you might want to try with your Porsche. Click www.zone8.org/about/favorite_drives.php

“Survival Gear”

PCA Tours are not desperate struggles pitting man against nature. But! They usually are scenic drives in places a flatbed won't reach before you finish your lattes at the corner Starbucks. Just in case something should go wrong with one of the most reliable automotive marques, take along some things to keep yourselves comfortable if you have to wait:

- Water
- Snacks

⁴ There's a [Caltrans Quickmap](#) app: [Google Play](#); [Apple Store](#).

⁵ There's an [Arizona 511](#) app, too: [Google Play](#), [Apple Store](#).

⁶ There's an iPhone app for Nevada 511 (and probably Android) but we can't find a link.

Saturday, 8 August 2026, Santa Barbara Region [Cars & Coffee Tech Talk](#)

Special Note: The August 8 Cars & Coffee at Shoreline Park will **not** take place. Instead, join us at **Porsche Santa Barbara**, where Sales Manager Rene Verbrugge will host a truly special event.

Porsche Santa Barbara has recently been honored as a **MANTHEY Racing Dealer and Installer** (pronounced "Manti"). This means the dealership can now offer aero kits for GT3 cars as well as comprehensive tuning for GT3s and GT4s for racing and track days. Porsche Santa Barbara is one of only 50 dealers in the entire United States authorized by Porsche to acquire the specialized tools and equipment needed for this work.

In addition, Porsche has given the dealer an extra GT3 allocation, which is scheduled to arrive from the factory around mid-July. Rene will equip that very car with a full MANTHEY GT3 kit for our Tech Talk in the showroom! Along with his specially trained technician, Rene will explain the equipment, review the history of the car and the racing team, and discuss the significance of the kit on these truly glorious machines.

The formal Cars & Coffee will begin as usual at **8:00 a.m.**, with refreshments provided by Renaud's Bakery of Santa Barbara. Parking will be available in a designated area on the lot so our Porsches can be displayed as usual. Porsche Santa Barbara is located just off the 101 freeway at 402 S. Hope Ave.

There is no charge, but reservations are required. Please register at: www.msreg.com/sbrtechtalk by **July 29** so we can get an accurate headcount for catering.

The Montana license plate loophole is a warning

Enforcement alone won't fix the growing problem. States should address punitive taxes.

From [The Washington Post](#), June 1 2026 at 6:00 AM

(Illustration by Kat Rudell Brooks/The Washington Post; iStock)

Opinion by [Scott Hodge](#)

Scott Hodge is a tax and fiscal policy fellow at the philanthropy Arnold Ventures, and author of "Taxocracy: What You Don't Know About Taxes and How They Rule Your Daily Life."

Cody Detwiler, who [performs on YouTube](#) as “WhistlinDiesel,” is known for reckless stunts involving souped-up cars and trucks. [He may have topped](#) the reckless meter when he accidentally set his \$400,000 Ferrari ablaze while off-roading through a cornfield in 2023 — then posted a video of the episode on his YouTube channel. In a later clip, he acknowledged that he [used a Montana business](#) to avoid paying thousands of dollars in sales tax on the car.

As the Ferrari burned, [Detwiler yelled](#), “I just lost a half-million dollars.” It turns out, he may have lost a lot more than that when police in his home state of Tennessee arrested Detwiler in November on two counts of tax evasion.

You see, Detwiler did what many wealthy car aficionados have been doing for years — [form a Montana LLC](#) and purchase the car through their new shell company. Montana has become sort of a Cayman Islands tax shelter for car collectors because it levies no general sales tax, and lawmakers created rules to allow tax-free vehicle purchases by LLCs. Thus, Detwiler avoided paying [Tennessee sales taxes](#) on his Ferrari. After paying a small registration fee, out-of-state owners are sent Montana license plates for what is now considered their “company” car.

And [Detwiler’s video](#) showing the Montana plate on the back of his burning Ferrari may have tipped off Tennessee authorities, because while the LLC registration is legal under Montana law, it is not necessarily legal in the state where the car owner actually lives.

Besides Tennessee, California and Utah have launched campaigns to identify and collect back taxes from the owners of these shell company vehicles. Last year, Utah Gov. Spencer Cox (R) [signed legislation](#) to create a data-sharing network to locate and assess residents driving vehicles with Montana license plates. The Utah effort could yield up to \$100 million in back taxes.

Similarly, the [California Department of Tax and Fee Administration](#) “has identified close to 500 California dealers involved in more than 2,500 sales since 2023 to customers claiming to use the vehicle in Montana. These sales, many of which involve luxury or exotic cars, cost the state more than \$10 million a year in lost tax revenue.”

Tennessee is making an example of WhistlinDiesel, but there are bigger lessons here.

Next, there is a fine line between illegal tax evasion and legal tax avoidance. Former automaker DaimlerChrysler used a less deceptive way [to get around](#) the chicken tax. It assembled its Sprinter delivery van in Germany, then took out components such as the engine, transmission

and wheels, and sent them as parts to a factory in South Carolina, where they were reassembled into a finished van. Thus, “Made in America.”

The Montana LLC structure is closer to illegal tax evasion when residents of other states effectively falsify their records to dodge their state sales taxes. Car owners are being aided in the deception by a [cottage industry of firms](#) willing to help set up a shell company for a fraction of what they would otherwise pay in sales taxes.

According to the California Department of Tax and Fee Administration, the highest number of cars purchased by Montana LLCs was in Beverly Hills, which is in Los Angeles County. It may be no coincidence that the combined state and local sales tax on autos in Los Angeles County is [9.5 percent](#). Even if I could afford a \$1 million Lamborghini, I might balk at a \$95,000 sales tax bill.

The nation’s 50 states have 50 different tax systems. Tax competition rewards taxpayers at the expense of states that fail to improve their tax codes. New York snowbirds retire to Florida to escape the weather and high taxes. Massachusetts shoppers will drive to sales tax-free in New Hampshire to buy expensive consumer goods.

States such as Tennessee, California and Utah believe they are losing millions in sales taxes because of the Montana LLC loophole. They have a right to chase down scofflaws. But the volume of evasion is also a sign that their tax and regulatory structures are uncompetitive at best and punitive and harmful at worst. Instead of focusing on enforcement alone, they should make their tax and regulatory climates less onerous to reduce the incentive to cheat in the first place.

Porsche CEO Says Company Will Not Produce an Electric 911: Report

Michael Leiters reportedly made the announcement during an event held by Auto, Motor und Sport in Germany.

“The entire Volkswagen Group is in the midst of evolution, as the German auto conglomerate works to cut costs significantly in the face of a changing market—specifically where it comes to electrification. Porsche is on a performance journey of its own, as CEO Michael Leiters [threatened to cancel the all-electric Porsche](#) 718 Boxster and Cayman line earlier this year,

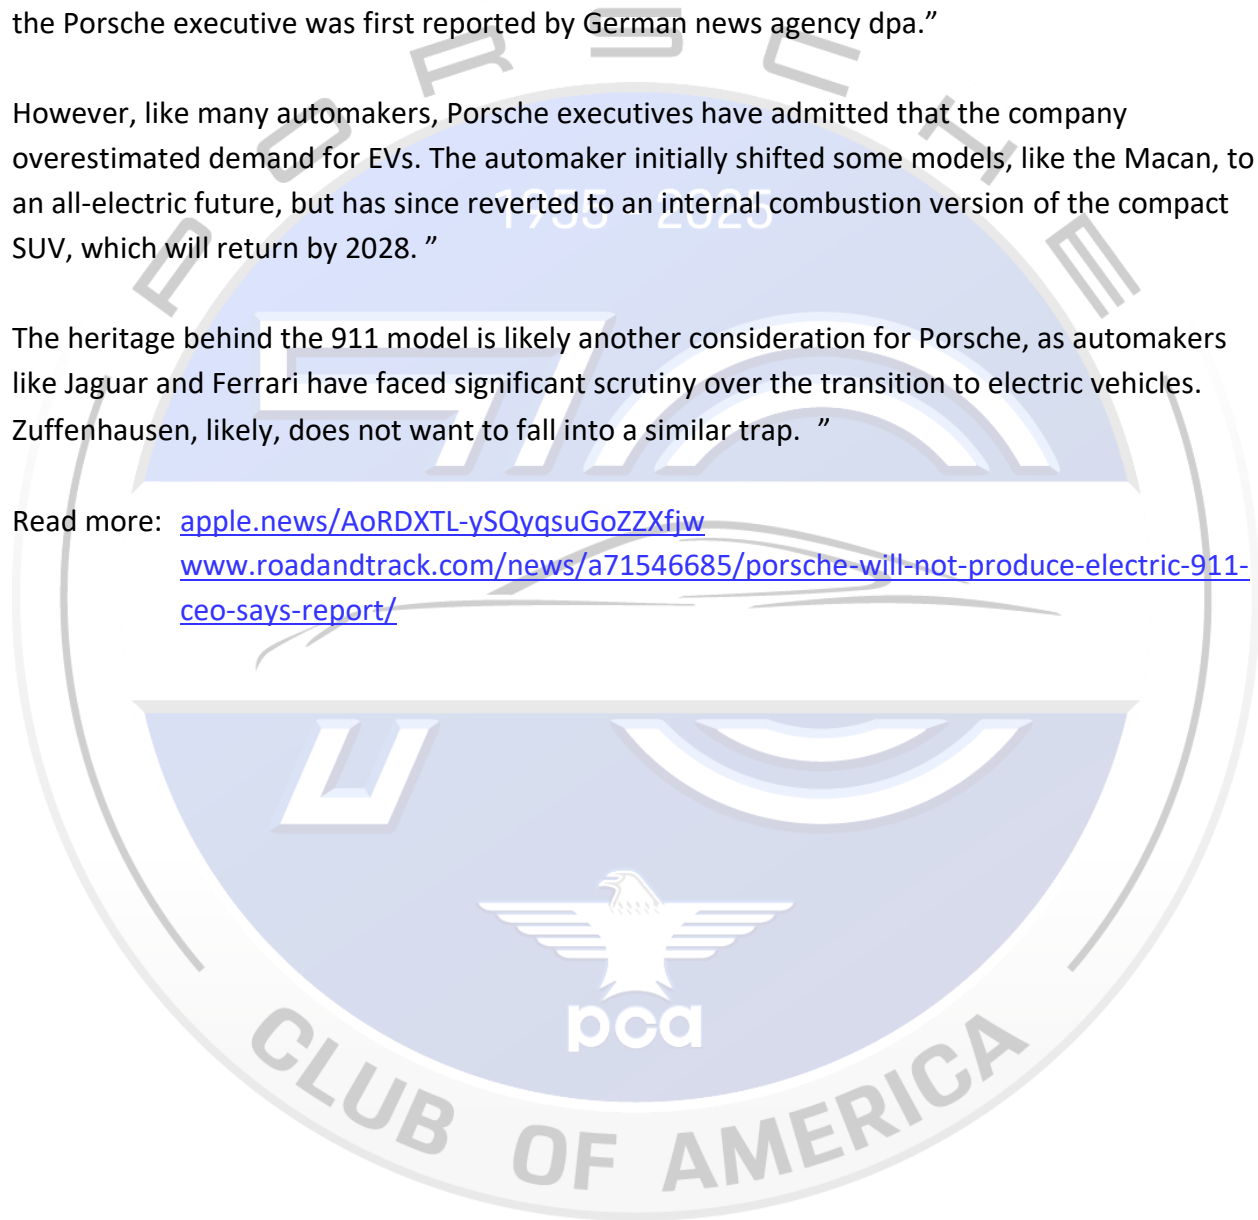

citing budget constraints and pressure to raise profits as the impetus for potentially cancelling the electrified sports car line.

And this week, Porsche's CEO reportedly made another bombshell announcement. [According to Reuters](#), during an event hosted by the German magazine Auto, Motor und Sport, Leiters said Porsche will not produce a fully-electric version of its flagship 911 sports car, The statement by the Porsche executive was first reported by German news agency dpa.”

However, like many automakers, Porsche executives have admitted that the company overestimated demand for EVs. The automaker initially shifted some models, like the Macan, to an all-electric future, but has since reverted to an internal combustion version of the compact SUV, which will return by 2028. ”

The heritage behind the 911 model is likely another consideration for Porsche, as automakers like Jaguar and Ferrari have faced significant scrutiny over the transition to electric vehicles. Zuffenhausen, likely, does not want to fall into a similar trap. ”

Windblown Mic is Live – Check Out Our New Club Podcast

I'm excited to officially introduce something new for our region — **Windblown Mic**, our club podcast dedicated to the people, stories, and passion that make PCA San Diego so special.

We've already hit the ground running and recorded several episodes featuring some familiar faces, including Bob Berman, Joan Cueto (Juniors Chair), Randy Irons (Membership), Jason (our Vice President), Greg Nickols (Sponsorship), and Ilko Nechev from Panorama Magazine. It's been a great mix of club insight, behind-the-scenes conversations, and a lot of fun along the way.

Listen & Subscribe:

YouTube: <https://www.youtube.com/@porscheclubofamericasandie6121>

Spotify: <https://open.spotify.com/episode/6NR3zs46uvaNjjBK95LK2X>

And this is where we need your help:

- **Subscribe to the YouTube channel**
- **Follow the podcast on Spotify**
- **Like, comment, and share episodes**

The more engagement we get, the more we can grow this into something really special for the club.

We're also looking for guests! If you've got a story, a car, a role in the club, or just want to be part of the conversation, we'd love to have you on. It's a relaxed, 30-minute session recorded at [Amplified in Carlsbad](#) — easy and fun.

This podcast is all about showcasing our members and building even more connection across the club, and I think it's going to be something we can all be proud of.

Take a listen, hit subscribe, and let's keep the momentum going.

Thanks everyone,

Michael

President PCASDR
